

Pride Pops!

You will need...

Wooden skewers
Jell-o Powder (in your choice of colours)
Water
Bowls (any size)
Ziplock or Sandwich Bags (medium to large size)
Paper Towel
Marshmallows

1

Set Up:

- *Pour water into bowls
- *Lay out sheets of paper towel
- *Pour the jell-o powder into separate plastic bags, a separate bag for each colour.

2

Steps:

- 1) Quickly dunk your marshmallow in water
- 2) Put it in a bag with the jell-o powder
- 3) Shake it up! Just until the marshmallow is covered
- 4) Place it on the paper towel to dry.

That's all!

Give your mallows an hour or so to dry completely, and then assemble onto the wooden skewers in the colour arrangements of your choice.

You can wrap them in plastic wrap, tinfoil or parchment paper to better preserve.

Other 'coatings' that work with this activity are hot chocolate powder, coloured sugar, some spices (like cinnamon and nutmeg), and small sprinkles. Drink crystals with sugar already added should be avoided, the result is just too sweet 🤢
